

I am writing to comment and complain about Sinclair Broadcasting's edict to its 62 stations to broadcast next week the partisan polemic about John Kerry without providing any equal time to Mr. Kerry or his supporters. This is a blatant violation of Sinclair's FCC-mandated duty to the public and FCC regulations. It is a clear attempt to influence an important national election in a blatantly partisan way. That is NOT the role of an FCC licensee. I urge the FCC to do its duty and intervene to prevent this abuse of the public trust and its license by Sinclair. Thank you for the opportunity to comment.
